

Progress of last week

Author: Shaolun Ruan

Date: June 3 2019

Mon - Wed

- Finished my bachelor thesis using \LaTeX format.
- Bind and printed the thesis.
- [Here](#) is the link of the bachelor thesis.

Thur - Sat.afternoon

- In order to make the visualization more beautiful, I learned how to use `svg` to achieve beautiful patterns in the web.
- Read a book *码农翻身*. A varrrry interesting book about computer history.

- I have been learning how to use Git. I used to using commands according *Baidu* and just paste them off, do not understand the principles such as what is the stage and how to roll back to last version.
- [Here](#) is the link I used to practice coding and write down some study notes in it.

Later

- Take a break and Take some graduation photos. *Not very satisfied, so I will not attach it in the report.*
